

VIP01 Passive IP over coax extender pair

VIP01 is a low cost solution which enables you use existing coax cable to transmit IP camera signals. Used in pairs with your RG59 cable VIP01 exceeds the IEEE 802.3 10BaseT NEXT specification. The working range is up to 200 meters maximum at 10Mbps speed.

Features:

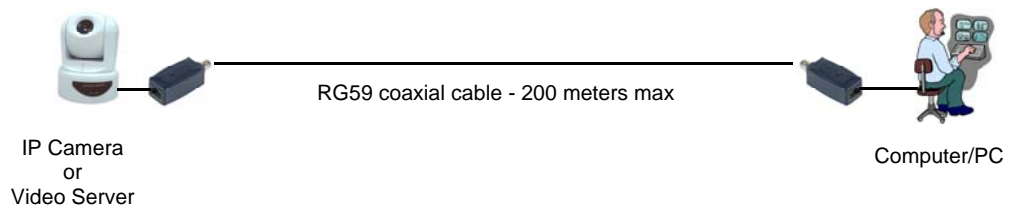

Sends IP camera signals over existing coaxial cable.

Passive, no power required.

Exceeds 802.3 10BaseT NEXT specification, isolating the receiver from the transmitted signal.

Transmission up to 200 meters (Max).

Installation view:

VIP01 Characteristics

Connectors	BNC female to RJ45
Impedance	75 ohm to dual 100 ohm
Crosstalk	< 30 dB
Cable	Coaxial Cable (RG59)
Dimensions (WxHxD mm.)	69x25x22
